

Description

Exocet Fuel Store Plus has been specially formulated to protect fuels and fuel systems where fuel is stored for long periods of time and/or the associated equipment is used only infrequently. The product acts to delay the symptoms of fuel ageing and additionally has anti-corrosion and biocidal properties.

Application

Exocet Fuel Store Plus is intended for use in bulk storage, but can also be added to the vehicle/machinery tank

Exocet Fuel Store Plus (XO1270FS)
1 litre treats 4,000 litres of fuel

Aged fuel often discolours, forms gums and other deposits and results in a deterioration in the ignition quality. Fuel ageing is irreversible and is accelerated by the addition of bio-components to the extent that latest specification fuels may only have a shelf life of 6-8 months.

Features

- Contains a high dose of antioxidant (anti-ageing) component
- Delays discolouration, gum/solids formation
- Maintains the fuel's ignition quality
- Extends shelf life of B7 fuels to >12 months
- Contains a fuel soluble biocide at a maintenance dose
- Reduces the potential for microbial growth during downtime
- Has corrosion inhibition properties
- Reduces the potential for filter plugging
- Proven on 100% FAME

All exocet™ branded products are available in a range of sizes to 1,000 litres
